

Effective Support for Subject Advisors & Schools

Mrs Thandy Ndashe

Deputy Chief Education
Specialist: Social Sciences

Mrs Ndashe makes use of the DDD Dashboard to support Subject Advisors and schools with targeted interventions to improve subject performance.

Providing targeted support

The DDD Dashboard provides Mrs Ndashe with an overview of her subject's performance at a **provincial, district, circuit, school and learner level**. These insights assist Subject Heads and Subject Advisors in identification of schools that need ongoing curriculum support, performance monitoring, moderation and teacher training.

Intervention success

The DDD Dashboard has allowed Mrs Ndashe to identify areas of concern and **plan structured interventions** to improve subject performance at learner level. In 2017, Mrs Ndashe noted that Grade 9 Social Sciences at Mgubho Combined School was under performing. The intervention addressed incomplete curriculum coverage and improving the informal assessments. This intervention resulted in a **52%** increase from Term 2 to Term 4.

“DDD Dashboard instrumental to school support”
