stories!

## ROLE BASED DASHBOARD APPLICATION WORKSHOP

### What is the training about?

Role Based Dashboard Application Workshop equips delegates with the knowledge and skills to use the Dashboard to answer questions that are important and specific to their role. The different roles that are catered for are District Directors, Curriculum Specialists, Circuit Management and School Management Teams.

### How long is the training?

Each module is 3 hours

### What is covered?

- **Role Based Dashboard**
- Explore questions which are **relevant to different roles** in the Department of Education.
- Each module looks to delve into the **planning and management** required by each role, using data to guide the process.
- Be able to **identify issues supported by data** to help prioritise and focus on.

**NOTE:** it is important to have attended the Foundation Dashboard E-Learning module or be very familiar with the Dashboard navigation.
